Advantages:

Fast: Cooks a meal only in 20 minutes, utilizing every drop of sunshine

Portable: Pre-assembled package, deploy in seconds, only 2.5kgs

Versatile: Cook what you want and how you want. Bake, boil and fry; if there's sun, you're good to go.

Fuel Free and Clean: No burning charcoal embers to dispose of, no open flame to worry about. When you are done cooking, just fold up your stove and go.

Summer or Winter: If there is sunlight, you are cooking, even after a snow; plus, the wind won't steal your heat

Keeps Food Hot For Hours: Our evacuated tube technology is in essence a giant thermos. This means that when spotty clouds arrive, the tube will remain hot and steadily cook between sun-breaks. Plus, it keeps your brownies warm for hours until a late night snack.

Features:

High efficiency

In the sunny days, this solar BBQ can generate heat fast, and also higher temperature than common wood fire.

Completely clean, no smoke, no fuel

Use this solar BBQ, you don't need pay any fuel cost, and also don't worry the smoke will make the food dirty.

Food just taste better

Use this solar BBQ for meat roast, it will keep most nutrition of the meat, so it taste much better than wood fire roast food.
